Andrina Granic is an assistant professor of computer science at the Faculty of Natural Sciences, Mathematics and Education University of Split, Croatia. She holds the Doctorate and M.Sc. degrees in Computer Science and the Dipl.-Ing. degree in Electrical Engineering, all from the Faculty of Electrical Engineering and Computing, University of Zagreb.

Her main research interests are in the area of human computer interaction, particularly in the design, development and usability evaluation of adaptive user interfaces for the information infrastructure here including on-site and Web-based educational systems (intelligent tutoring systems and their generators, authoring shells). She has collaborated in a number of R&D projects, and has authored or co-authored more than 30 research and professional papers in conferences and journals, along with several educational texts.

Andrina Granic radi kao docent na Fakultetu prirodoslovno-matematickih znanosti i odgojnih podrucja Sveucilišta u Splitu, Hrvatska. Doktorirala, magistrirala i diplomirala je na Fakultetu elektrotehnike i racunarstva u podrucju tehnickih znanosti, polje racunarstvo.

Njezino osnovno podrucje interesa i istraživanja je interakcija covjeka i racunala, narocito dizajniranje, razvoj i vrednovanje upotrebljivosti prilagodljivih korisnickih sucelja sustava ukljucenih u informacijsku infrastrukturu, specificno on-site i Web-orijentiranih sustava obrazovanja (inteligentni tutorski sustavi i njihovi generatori, autorske ljuske). Sudjelovala je u nekoliko R&D projekata, te je autor ili koautor više od 30-tak znanstevnih i strucnih radova na konferencijama i u casopisima, uz nekolicinu obrazovnih tekstova.
